5353 Roswell Rd. J2
Atlanta, GA 30305
(404) 704-7634
jwmarion@gmail.com

Professional Summary

- 3 Years of college computer science experience plus a certificate from Digital Crafts coding bootcamp
- 6 years Information Technology experience
- Build websites and applications based on **Java, Python, Javascript, NodeJs, Html, Css**, and more.
- Experienced in both PostgreSQL and MySQL.
- Github Experience

EDUCATION

Digital Crafts Developer Bootcamp, Atlanta, GA

2017

Spent 17 weeks learning the ins and outs of full stack web development. I also took a computer science elective that focused on data structures and algorithms. The course included multiple full stack projects.

Kennesaw State University, Kennesaw, Ga

2010 - 2013

Majored in computer science with a focus on mathematics. Finished the majority of the program. We programmed mostly in Java with some classes in C# with a large focus on algorithms.

EXPERIENCE

Voya Investment Management, Atlanta, GA

Desktop Support Technician

2012 - 2016

Level 2 support. Received and closed support tickets dealing in diagnosing hardware and software issues. This included communication with teams of investors, programmers, and other staff. This often involved working with software companies to figure out a solution.

Fry's Electronics, Duluth, Ga

Computer Repair Technician

2009 - 2010

Spoke with customers who brought in their computers and I would diagnose and repair the issues. This involved working with Windows XP, Vista, Windows 7, and Mac OS X.
